ALL ABOUT US

Confused and struggling with your parents about their care? Not sure what to do about finances? What is the right decision? Call us. We are Professional Geriatric Care Managers who work together offering Nursing and Social Work expertise to help you with these problems.

Linda Sullivan and Debbie Gitner, partners in **ElderCare Resource Services** bring together both a Nursing and Social Work background. Their combined expertise complement each other and offer families expertise, knowledge, and support through the medical maze.

Linda and Debbie are able to offer a wide range of services to our clients. We usually begin with an assessment of the situation and then we develop a plan. In our assessment we are able to review the medical needs as well as the psychosocial needs of the elder. Linda and Debbie develop a complete assessment together as the health status of the elder drives the needs.

With our services we provide support to the caretakers as we understand that caring for your relative is an enormous responsibility. Linda and Debbie try to help families by providing information to the caretakers so they can be aware

consumers for their aging relative. We feel the more information the caretakers have the better decisions they make, therefore providing the highest quality of care. Then family members are able to make the decision for the one you love.

**ElderCare Resource Services** helps to relieve the stress for the caretakers involved. We understand the pressures involved when caring for your relative and we are here to assist you in coping with the medical care maze.

**ElderCare Resource Services** is there for you.

Give us a call.

**ElderCare Resource Services** is available to families, lawyers, and community agencies to assist the elderly. Our personal experience with over 57 years combined gives us the knowledge needed to assist the elderly. Each of us has worked in Nursing Homes and acute care hospitals. This allows us to share our knowledge with the elderly and family members giving them "inside information".

Visit our web site. There you will find much more information.

The first phone call to us is free.

We want to hear from you.

Give us a call and hear what we have to say.

OUR ADVANTAGE: HOW WE DIFFER FROM OTHER GERIATRIC CARE MANAGERS

Linda and Debbie's partnership and backgrounds complement each other. The combined Nurse and Social Worker are able to complete a thorough assessment of the elder. Many Professional Geriatric Care Managers work

independently and their backgrounds are generally Social Worker ONLY.

**Our fees are comparable to other Geriatric Care Managers but with our service you receive two for the**

**price of one.** We are offering a special two for the price of one through the summer months. This means that a Nurse and Social Worker will complete the assessment together at no extra charge.
